## New Publications.

THE ROMANCE of the REVOLUTION: a History of the Personal Adventures, Heroic Ex-ploits, and Rementic Incidents as enacted in the war of Independence. One extra large royal volume, elegantly illustrated, in muslin. Price \$1.50; elegant gilt sides and

edges, \$2.

This volume possesses a romantic interest in being the legendary part of our great national contest, and as such, i, calculated to promote a better knowledge of the spirit that calculated to promote a better knowledge of the spirit that pervaled that era, than can be derived from almost any other source. It has all the freshness and interest of a romance, with the strict truth of history. No similar volume has ever been published, and it therefore contains much his-torical and entertaining knowledge relative to the Revolution which, from never appearing heretofore in a permanent form,

is new to the great body of the people.

CONTENTS

of the ILLUSTRATED NEWS for the week ending Saturday, Jan. 1, 1853.

ENGRAVINGS.

1. "Birth of the New-Year," a design by Thomas. A large page engraving, pronounced by artists to be one of the most beautiful designs ever produced.

2. "The Last Moments of Daniel Webster," a magnificent picture, covering two entire pages. The position of the various members of Mr. Webster's family and friends, standing around the dwing bed, is faithfully represented. The features of the dwing stateman are accurately produced. The group also includes portraits of Mr. Pletcher Webster, Dr. Warren, Mr. J. W. Paige, Mr. Peter Harvey, Mr. S. A. Appleton. The accuracy of these portraits has been greatly assisted by the dagmerrectype.

3. "Mr. Webster's Libbary," A large engraving, showing an internal view of this beautiful spartment.

4. "The Mansion of Daniel Webster at Marshfield." A beautiful picture, drawn on the spot.

5. "The Tomb of Daniel Webster."

6. "The Webster Obsequies at New-York—the Funeral Car,"

7. "Destruction of Chickering's Great Plano-Forte Man-

"Destruction of Chickering's Great Piano-Forte Man-tory at Boston. Mass." A large and spirited engraving. "View of the Foundation of the Crystal Palace, New-

"The Celoric Ship Ericson."

STRONOMY. - THE MECHANICAL

A STRONOMY.—THE MECHANICAL ZODIAC. By Charles E. Townsend.

Among numerous recommendations received, are the following from Professor W. C. Bond, of Cambridge, and Hornce Webster, LL.D., of the Free Academy of New York.

HARVARD OBSERVATORY.

CHMERIDER, MASS. DEC. 17, 1832.

DEAR S.R. I thank you for your valuable present of your "Mechanical Zodiac." It is very nicely got up, and it is evident may be used with advantage in schools and in private families in solving problems usually referred to globes, and from motives of economy and convenience might very well be substituted for the more expensive apparatus. Wishing you the success which your landable saxetions merit, I remain, respectfully yours.

To Charles E. Townsend, Esq., New-York.

I have examined Mr. Charles E. Townsend's "Mechanical Zodiac," and think it ingenious and as accurate as the nature of a graphical construction admits, sufficiently so for all practical purposes.

nature of a graphical construction admits, sameall practical purposes.
It appears to me that the instrument referred to is well
calculated to be useful to learners, and interesting to all
who are found of cultivating a knowledge of the sublime subject of Astronomy.

Free Academy, Nov., 1252.
The above work is furnished at retail at the low price of
One Dollar each.

Publishers, No. 60 John st., New-York.

Nearly opposite the Metropolitan Hotel, Niblo's Garden.
T. J. C. as prepared to wait on his friends and others, who
are in pursuit of gifts for the season.

BARNUM & BEACHS' PAPER.-CARD | THE ILLUSTRATED MAGAZINE OF The Editor, Mr. John Cassell, has very successfully super-intended and published a similar work in England during the past year, under the title of The Illustrated Exhibitor and Macazine of Art, the circulation of which has averaged 60,000 each number. Encouraged by the success which has attended this enterprise, he has determined upon issuing a Magazine of still higher pretensions—one indeed which will prove the pictorial wonder of the age. Each number will cousist of Sixty-eight Pages of large size, printed on the fibest paper.

The Illustrations will be entrusted to the first Artists and Engraves in the world. In oder to render this a truly magnificent work, and to make it really what its name imports. A Magazine of Art, and the most interesting pictorial work that has ever appeared, the publisher intends, in addition to a profusion of line Engravings throughout the work, to give at least

FORTY SUPERB ENGRAVINGS
in each Monthly Part, four of which will be printed separately an superine plate paper.

The work will be so conducted as to embrace the greatest variety of matter in its various departments, upon each of which the highest literary takent will be employed.

The following is a brief outline of the plan of the Magazine:

I. The Historical Department will abound with picturesque representations of the most remarkable events which have occurred in this and other countries: accompanied with interesting sneedotes and details from the pens of the most eminent writers of the day. This Department will contain several splendid engravings, designed by the distartists of the world, engraved in the highest style of modern art.

contain several splendid engravings, designed by the dirst artists of the world, engraved in the highest style of modern artists of the world, engraved in the highest style of modern II. The Men and Women of the Age.—This department will consist of becausifully executed portraits of the leading characters of the age, especially of those who figure on the stage of humanity as the world's benefactors. Each portrait will be accompanied by an interesting biographical stetch. III. The Wondars of Natural History, Botany, and other Sciences, will be developed in choice engravings of Boasts, Birds. Fishes, Insects, Forest Trees, Flowers, Geological and Fossil Spectmens, &c., with accompanying descriptions. IV. The Triumphs of Architectural Art will be displayed in exquisitely finished representations of Cathedrals, Churches, Palaces, and other models of ancient and modern Architectural Art.

V. The Works of the Great Masters, selected from the principal Galleries of Art in the World. In general, the Portrait of the Master will be given, accompanied with a highly-finished engraved copy of his chef d'euvre.

VI. The Scientific Portions will be rendered highly interesting by the familiar explations and the numerous diagrams which will accompany each subject.

VII. Manufactures.—The principal manufacturing processes in use will be fully explained by minute details and an abundance of beautiful engravings.

VIII. Machinery and Inventions will have due attention paid to them, and be described by numerous appropriate engravings.

IX. Ladies' Work-Table Department will contain a rich variety of elegant and origing hatters for rations kinds of

engravings.

IX. Ladies' Work-Table Department will contain a rich variety of elegant and original patterns for various kinds of useful and ornamental work, with ample directions for copy-

OF ART will be pecidedly superior to any Pictorial Magazine of the day.

The paper, the typography, the engravings, the literary articles will fir surpass its successful predecessor, published in England, upon which such high eulogiums have been pronounced by the whole public press. Six of the monthly portions, when completed, will form a volume which, for interest, originality, value and beauty, will defy competition. It will not only be an interesting family book, but a rich ornament for the drawing-room table, and a pleasant companion in the study.

The parts will appear on the first of every month, at 25 cents each, and will be supplied by every bookseller throughout the Union.

New-York: ALEXANDER MONTGOMERY.

So. 17 Spruce-st.

As in the creat random of the fandstry of all countries of the products of the manufacturing energies of all countries of the earth were arranged side by side, so that the mind could grasp at once the leading sources and characteristics of the wealth and power of every country, so, in the work in question, the triumphs which have been achieved by the greatest Painters will be collected, and the noblest works of Genius so represented and contrasted as to realize, in a persented form, a GREAT EXHIBITION of the ART of ALL NATIONS.

GREAT EXHIBITION of the ART of ALL NATIONS.

Every arrangement has been made to create a work of cosmogolitan interest. French and English artists, savans and capitalists have, in this instance, united in a common otheret—that of embedying, in a popular form, which all may study and profit by, the glarious lessons conveyed by the "Lives and Works" of those whose energies have been concentrated on the representation of Nature in her purest and most ideal forms.

Each Monthly Part will consist of sixteen pages of letter-press, with numerous illustrations inserted in the type, to-seiber with several finished and separate Engravings on Wood, so executed us to demonstrate in the most convincing and unprecedented measure and separate Engravings of execution for the seproduction of works of art of the highest and most refined description. The whole will be printed on the best paper, and in the most perfect style of typearaphy.

Each Part (with very rare exceptions) will be complete in itself, and separately paged, so as to admit of hinding in whatever series may be preferred; and will contain a Biography of the Arrish the Portrait, fac-similes of his handwriting, by which his signed pictures may be identified, and

CARLISLE IRON WORKS for SALE. CARLISLE IRON WORKS for SALE.—
Cumberland County, Pa, will be offered at public sale, on
the premises, on SATURDAY, the 15th day of January,
1833, at 12 o'clock, M. The property comists of about
10,000 acres of Land, of which 359 acres are cleared, and in
a good state of cultivation; the residue is timber land. The
improvements consist of twenty Dwelling-Houses, (some
stone and some log,) three large Bank Barns, one large Merchant Mill, 160 by 75 feet, Saw Mill, Forge, Furnace, Coal
Houses, Carpenter and Blacksenith Shops, all in good order.
This property, in water-power, has the advantage of the
Boiling Spring and Yellow Breeches Creek combined, both
never-failing and never-freezing streams of water, and
which never fail to keep the works in operation day and
night. The works are never stopped by freezing weather,
and they are located in the heart of the great Camberland
Valley. There is an inexhaustible supply of the best on
the premises, convenient to the works, and of easy access.

Persons desiring to purchase or to look as the property.

Perrons desiring to purchase or to look at the property, till call with the undersigned, residing at the Mansion oute, on said tract.—Dec. 9,1852. PETER F. EGE. FOR SALE-A ROLLING MILL, in per-

ARDWARE.-For Sale, a valuable and well selected stock of Hardware, amounting to about \$23,000, together with the privilege of leasing a first-rate Store, eligibly located for such a business. The same has been conducted during the last twenty years, and is owned solely by the advertiser. For persons destrous of going lato the Hardware business, no better opportunity may present itself. For further particulars address Box No. 2,138 Post-Office.

THE CAMBRIA IRON COMPANY-Or-THE CAMBRIA IRON COMPANY—Organized under the laws of Pennsylvania, with a capital
of \$1,600,000, propose embarsing in the manufacture of
Railroad Iron, at Johnstonn, Pennsylvania. The location
hey have secured offers advantages superior, it is confidently
believed, to any other in this country. Iron Orac, semibitummous Coal, Limestone, and nearly every article requirdef or the manufacture of Iron exist in inexhaustible quantities, on the spot; and these deposits are now worked, and
the minerals delivered cheaper than at any other knows
point now occupied for the manufacture of Iron. The Penngivania Canal and Central Railroad pass through the properry, and cross each other at the spot where the mineral
vening are most thoroughly opened out; and which location
for its other advantages for facility of manufacturing, and
vicinity to a populous borough, has been selected for the establishment of Railroad Iron Works, and for the exection of
other blast furnaces, in addition to those now n operation.

The attention of canitalists disposed to embark in an enter-

other blast furnaces, in addition to those now a operation.

The attention of capitalists disposed to embark in an enterprise which offers a remunerating profit, even on the low prices of from current before the rise of the last six months, and which promises to be very horative while anything like present rates prevail, and also of Bailroad Companies desirous of making arrangements for Iron Rails to be delivered in 1833, is called to this enterprise.

Pamphlets under the signature of the Practical Iron Morchants and Manufacturers, who have thoroughly examined this property, and who desire to precure additional subscriptions to carry out, with safety and spirit, a business requiring a large cash capital, can be had at the office of the Agent for the Provisional Company.

SIMEON DRAPES.

for such their very extensive and complete establishment for memfecturity Iron, situated on tide water, at Fox Point, in Pravidence.

These works have all been erected within soven years, are in good order, and ready to be put into immediate operation, and are equal to the production of 24 tune of iron into place and does per day.

Connected with the above is a Wire Mill, capable of ranning eight tune of rods per day, for which there is a regular and increasing demand in Providence, at the present moment, at least equal to the entire production of the mill. Also, Reynolosis Patent W rought Spike and Nail Machines, which will turn out ten time per day. Also, a Cut Nail Mill, capable of running out 180 to 175 casks per day, and which could be easily arranged to double that product.

As this establishment was built for use, no expense was quared in having everything about it of the most perfect kind, and the inventory exhibit as complete an establishment, perhaps, as is to be found in New-England.

It is thought that no place in the United States presents a better opening for the successful prosecution, by a practical man, of the manufacture of wire rods, from, mails, and spikes, than the City of Providence, the center of a large and rapidly increasing manufacturing district, requiring for consumption the entire production of these works.

These works being on tide water, where the largest class of vessels which frequency our bay can load and receive cargoes without lighterage, allows of their receiving their supplies of coal and iron at the lowest rate of freight; and labor can at all times be had on as good terms as elsewhere in New-England.

As it is supposed the purchaser would desire to examine the premises, further description is deemed unnecessary. The property will be sold chap, and the terms of payment will be made easy.

For an examination of the property apply to Mr. W. H. HENDERSON, on the premises, and for terms of application may be made to either of the subscribers, in Provisionee.

HENRY L. KENDALL

TO HARDWARE MERCHANTS in NEW-YORK, BOSTON, &c.—A Hardware Dealer in a city in Canada West wishes to make an arrangement (as partner or otherwise) with some house in the States for a regular anphy of American Hardware. Address R. C., care of J. S. Ryan, Toronto, C. W
